

Clovernook Pointer and Setter Club

By RAY WHEELER

TRI VALLEY Wildlife Area near Dresden, Ohio was the venue for the fall Clovernook Pointer and Setter Club field trial.

These grounds have tremendous potential as a field trial venue. Many of those present had very positive things to say about the area.

NONSTOP SPEED

First in the Amateur Shooting Dog Stake

Thanks to all for your efforts. Several others provided much needed support by helping when needed.

Several folks traveled quite a ways to participate in the trial. Bill and Cindy Klenner came from Michigan and were accompanied by daughter Katie who has been missing from trials for awhile.

Jim Thomas and his wife Nadine came from New York and showed well with their string of setters. Dr. Marion Brown also brought his string of setters and won the All-Age Stake. Don Mullins came from Central Kentucky and ran several nice dogs. Ed and Dee Stevens came with their friend Steve and ran in the All-Age Stake on Saturday. Tammy and Heath Harter brought a friend Hoss to the trial. Bill Brown attended but was without his lovely wife Lynn who was home mourning yet another Notre Dame loss. Dave Kayser and his wife and daughter also attended. It was gratifying to see Denver and Lucy Kilburn attend their first trial at Tri Valley. They have given many years of dedicated service to the Clovernook Club.

The trial was well supported with two

full days of running. We were busy but also had time to visit and enjoy a dinner that was prepared by a local caterer and served at the clubhouse on Saturday evening.

The weather was very hot and dry on Saturday. Sunday was overcast and cool but yet the better performances were surprisingly turned in on Saturday.

Judging duties were aptly handled by experienced and able judges. Ted Goodyear, Ray Wheeler, Allen Fazenbaker, Randy Hopkins, Heath Harter and Kelly Shepard all took their turn in the

Randy Hopkins, Ed Teiga and Allen Fazenbaker worked to handle the many and varied tasks it takes to make a trial run the right way. Randy took entries, did the drawings and was the main organizer. Allen managed the walking stakes and judged the Open Shooting Dog along with Randy. Ed helped get the dogs to the starting line and was on hand to do whatever else needed to be done. Ted Goodyear and Heath Harter planted birds and helped judge.

Allen's wife Deb prepared lunches (the chili was delicious) and added to the grace of the trial.

saddle and rendered logical decisions. Jean and Robb Webb judged the walking stakes.

The club is appreciative of the many positive and encouraging comments from those attending the trial.

Central Kentucky Field Trial Club

By PAM TUCKER, Secretary

THE CKFTC's fall trial sponsored by Purina began at 8:00 a. m. Saturday, September 25, at the Miller Welch Central Kentucky Wildlife Management's course No. 1 by the clubhouse.

The Open All-Age ran first. The beautiful crisp September morning break-away soon changed with the temperature climbing into the 90s by noon.

The grounds were in excellent shape but the green foliage, dry dusty ground and 93° weather did little to contribute to bird work. All winners were placed on race. Judges Max Eberle of Madison, Ind., and Buck Barley of Washington, Ind., gave each entry their diligent attention. Ken Taff's young pointer female Lone Elm's Bonnie was one of the most striking dogs of the trial delivering an all-age race to place first. Cloud Elhew Dancer, Charles Turner's pointer male, came in second. Code Red, red setter male owned and handled by Tim Hammons of Silver Creek Kennels, had a forward short race to place third.

CASEY CREEK REMOTE CONTROL
First in the Open Shooting Dog Stake;
First in the Amateur Shooting Dog Stake

RELOADED
First in the Open Derby

The Open Shooting Dog was judged by Jim Pendergest of Lexington, Ky., and David Jones of Berea, Ky., who gave each entry their keen attention. We appreciate our judges enduring the dry sweltering conditions. Water for drinking and cooling the dogs and horses was available at the breakaways. Casey Creek Remote Control, Buster and Pam Tucker's pointer male, showed his championship qualities running a consistent forward race to the front to earn first. Lone Elm's Alice White, young pointer female handled by owner Ken Taff, scouted by his wife Dr. Janet Taff, had the most exciting race of the day. Had it not been for a 9 minute absence at the beginning she may have placed first rather than second. The judges noted she was "the fastest dog" they saw. Third place went to Casey Creek Jarvis, pointer male handled by owner Buster Tucker and scouted by his wife Pam.

The Open Derby was won by Reloaded, Jim Pendergest's nine-month-old stylish pointer male which outran the competition and showed lots of potential. Second was Ross Leonard's setter male Groove Armada which was

running in his first field trial. Tim Hammons' Irish setter male Red N Ready placed third.

The Open Derby and Amateur Shooting Dog Stakes were judged by Buck Barley and Max Eberle.

In the Amateur Shooting Dog, Casey Creek Remote Control ran a consistent race to place first. Second was Lone Elm's Alice White, pointer female which had a biddable forward effort. Ross Leonard's setter male Houston's Blue Diamond placed third with a lot of drive.

Many people helped make this trial a success. Ken Taff assisted with the drawing. His details ensured the safety of the riders by spending his day Friday prior to the trial filling ground holes, sanitizing our horse trough receptacle and other repairs.

Bill and D. J. Cox's drove the dog wagon on Saturday, traveling from Louisville to spend their day assisting us. We consider ourselves privileged to be their friends. Janet Taff and Pam Tucker's homemade goodies served on the dog wagon were wonderful.

Purina's sponsorship of hats, dog food and ad assistance were greatly appreciated. Hope Eberle, Judge Max Eberle's wife, helped us out by driving the dog wagon on Sunday. A judge's wife is supposed to be treated special not put to work. We appreciate your help Hope, thanks a lot.

Thanks to all participants who entered their dogs. Without Judy Hurd's clubhouse meals we'd need to make other arrangements; her services can be counted on. Appreciation to the Department of Fish and Wildlife, Scott Buser, Larry Williamson, and Buster Tucker, KFTA elected grounds chairman, the MWWMA grounds are in excellent shape. Great effort, team work and extensive planning have proved abundantly successful.

We hope to see everyone March 12-13, 2011 for our spring trial.
