

(Saving stamps!)

Dear Jim,

I'm sorry I wasn't more alert - didn't realize Ed wasn't taking pup nor that the pup in next run was Lewis' & all the circumstances about the virus until I came home with Beave & Ed (he stopped with us on highway for a discussion of route, then trial mess, disjunct mess etc.)

We liked her & hope she is o.k. as well as other & had I known would have brought her home if you wished - we've never had any trouble with any virus etc. Really enjoying having fewer dogs (I always end up with bulk of work) but did think she looked particularly nice & always an easy mark for pups. <sup>you have enough trouble without a virus taking over</sup>

Tom made me re-write my version of trial (only in fun, anyway) but know that you, Ed & Cliff would have preferred it if this one-sided Lewis promotion bit that follows our best Marge

I hope to see you soon!!

THINK SUMMER!!
